### EDUCATION

University of Arizona  
Tucson, AZ 85721

BS IN SOCIAL AND BEHAVIORAL  
SCIENCES

### KEY SKILLS

JavaScript  
ReactJS  
HTML  
CSS  
SASS  
Bootstrap  
SQL  
Knowledge of API's  
Knowledge of VCS's

### PROFILE

I am focused to improve my skills not only as a Front-end Developer, but as a Computer Programmer. I am determined to deliver and excited for the continuation of my growth.

### EXPERIENCE

#### *FRONT-END DEVELOPER • MAY 2023*

##### **Recipes •**

**<https://internationalrecipes.netlify.app/>**

Recipes, built through ReactJS with MealDB's API, improved my ability to manipulate data from an API. This project has been critical to my growth as a Front-end Engineer and a problem solver. Bootstrap and SASS were used to implement the UI and UX. Through React hooks, I fetched relevant data to implement multiple features, including a Random Recipe page, a Filter section, and Search features.

#### *FRONT-END DEVELOPER • MAY 2023*

##### **Chipotle-Clone • <https://chipotle-clone.netlify.app/>**

In the creation of my mock Chipotle site, I refined and enhanced my skills in many aspects of Front-end Development. My design skills, though they were lacking, have now been resurged with the aid of animation and transition techniques, along with CSS precursors and frameworks - SASS and Bootstrap. I am very confident with my ability to receive a wireframe and deliver a product that is not only seamless, but also written in an organized and clean manner.
