EDUCATION

University of Arizona
Tucson, AZ 85721

BS IN SOCIAL AND
BEHAVIORAL SCIENCES

KEY SKILLS

JavaScript
ReactJS
HTML
CSS
SASS
Bootstrap
SQL
Knowledge of API's
Knowledge of VCS's

PROFILE

I am focused to improve my skills not only as a Front-end Developer, but as a Computer Programmer. I am determined to deliver and excited for the continuation of my growth.

EXPERIENCE

PROJECT • MAY 2023

Recipes • [Github.com/mlgoldstein28/recipes-db](https://github.com/mlgoldstein28/recipes-db)

Recipes, built through ReactJS with MealDB's API, improved my ability to manipulate data from an API. This project has been critical to my growth as a Front-end Engineer and a problem solver. Bootstrap and SASS were used to implement the UI and UX. Through React hooks, I fetched relevant data to implement multiple features, including a Random Recipe page, a Filter section, and Search features.

PROJECT • MAY 2023

Chipotle-Clone • [Github.com/mlgoldstein28/chipotle-mock](https://github.com/mlgoldstein28/chipotle-mock)

In the creation of my mock Chipotle site, I refined and enhanced my skills in many aspects of Front-end Development. My design skills, though they were lacking, have now been resurged with the aid of animation and transition techniques, along with CSS precursors and frameworks - SASS and Bootstrap. I am very confident with my ability to receive a wireframe and deliver a product that is not only seamless, but also written in an organized and clean manner.
