EDUCATION

University of Arizona

Tucson, AZ 85721

BS IN SOCIAL AND
BEHAVIORAL SCIENCES

KEY SKILLS

JavaScript
ReactJS
HTML
CSS
SASS
Bootstrap
SQL
Knowledge of API's
Knowledge of VCS's

PROFILE

I am focused to improve my skills not only as a Front-End Developer, but as a Computer Programmer. I am determined to deliver and excited for the continuation of my growth.

EXPERIENCE

PROJECT • MAY 2023

Recipes • Github.com/mlgoldstein28/recipes-db

Recipes, built through ReactJS with MealDB's API, improved my ability to manipulate data from API's. This project has been critical to my growth as a Frontend Engineer and a problem solver. Bootstrap and SASS were used to implement the UI and UX. Through React hooks, I fetched relevant data to implement multiple features, including a Random Recipe page, a Filter section, and Search features.

PROJECT • MAY 2023

Chipotle-Clone • Github.com/mlgoldstein28/chipotle-mock

In the creation of my mock Chipotle site using React, I refined and enhanced my skills in many aspects of Frontend Development. My design skills, though they were lacking, have now been resurged with the aid of animation and transition techniques, along with CSS precursors and frameworks - SASS and Bootstrap. I am very confident with my ability to receive a wireframe and deliver a product that is not only seamless, but also written in an organized and clean manner.
